Launchers and Rounds

Product Catalog

NLS Launchers

.68 Caliber

NLS-900

Model: NLS-7A900

- Compact tactical, carbine launcher with 200-round hopper, high pressure air bottle, and maintenance kit. Range is target accurate up to 60 feet, area saturation out to 150 feet. Trigger can be set for semi-automatic, three round burst, or full automatic.

NLS-400

Model: NLS-2S400

- Semi-automatic carbine, 160-shot high-pressure air launcher system. Range is target accurate up to 60 feet, area saturation out to 150 feet. Offset hopper for wider field of view and easy breech round loading. Launcher has picatinny rail mount for addition of optional tactical lights, scope sights, laser sights, and camera. Includes rechargeable HPA bottle.

NLS-P7

Model: NLS-1P700

- Semi-automatic, compact 7-shot compressed gas pistol. Range is target accurate up to 60 feet, area saturation out to 150 feet. Removable magazine in pistol grip holds pre-loaded 12-gram disposable CO2 cartridge and 7 projectiles. Magazine gives option of quick reload capability with free second magazine included.
