

BTI Rams

The complete line of BTI Rams was developed utilizing the personal experience of over 300 breaches . All BTI Rams are designed without *Gimmicks* - Only Steel Shapes.

The "FON" breaching ram packs 70 lbs of raw steel into an overall length of 24-inches. If you have a "Freak Of Nature" on your breaching team, this is the ram.

The "Mity Mouse" breaching ram packs 44 lbs of raw steel into an overall length of 24 inches. This ram is the most popular choice for SOU's and SWAT teams.

The "PAC" breaching ram was designed from the start as a packable ram measuring in at 1 x 7 x 21 inches. Total weight: 22 lbs.

The "Wasp" ram is a CQB ram measuring a short 18-inches overall, and weighing in at 28 lbs

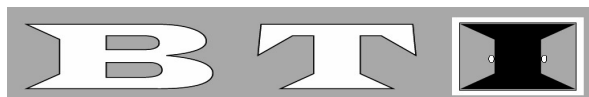

BTI Conventional Breaching Rams contain the following features:
